Tools: Github | Jira | Miro | Microsoft 365 | Optimal Workshop | OpenGL | Google Analytics

Technical Experience

High Fidelity

Software Developer (Internship)

- Expanded the existing glTF file importer in C++ to add support for: blendshapes, skinning and weighing of models, binary and embedded files, animations, and loading of models as avatars
- Planned feature releases alongside Project Managers by writing Jira tickets in an Agile setting
- Communicated with the QA Team in order to contribute to the existing JavaScript test suite

Jan. – June 2019
California, USA

KleerMail

Software Engineer (Internship)

- Collaborated with the CEO and VP of Product to create demos and wireframes in Sketch, InVision, and InDesign that were presented to and successfully brought in new clients
- Applied results from internal and user testing and feedback from target users to iteratively improve our web-based application's usability and design
- Delivered product features, bug fixes, and updated tests utilizing JavaScript, HTML, and CSS

July – Dec. 2017
Massachusetts, USA

Projects

Fanworks (*Distinction*) – raveenajain.github.io/projects/hcid/fanworks

- Conducted three interviews with Domain Experts and a review of the popular fandom site Archive of Our Own to understand folksonomies and how user tagging relates to search
- Delivered a domain model, sitemap, user journey, and mid-fidelity wireframes of key screens

Nov. 2022 – Jan. 2023
London, UK

KitchenMate (*Distinction*) – raveenajain.github.io/projects/hcid/kitchenmate

- Designed a diet and sustainability app for the Echo Show, emphasizing User Centred Design
- Conducted user interviews and naturalistic observations that inspired our personas, user journeys, and mid-fidelity, annotated wireframes that were made clickable in Axure
- Led the Recipe and Reward functionality development and established a timeline for our team

Oct. – Dec. 2022
London, UK

BeeWell – raveenajain.github.io/projects/beewell

- Succeeded in working with a partner to build an interactive, web-based prototype utilizing JavaScript, HTML, and CSS for our Human Computer Interaction module's final project
- Developed multiple iterations of our product inclusive of low and high-fidelity prototypes
- Progressed our ideas based on feedback from user tests and heuristic evaluations

Oct. – Nov. 2019
Massachusetts, USA

Other Work Experience

City, University of London

Student Voice Ambassador

- Engages with students to encourage them to provide the university with feedback via surveys

Nov. 2022 – Present
London, UK

Auric Real Estate Management

Administrative Assistant

- Learned new systems and procedures as needed to efficiently complete any new responsibilities
- Processed payments and data monthly for accounts totalling hundreds of thousands of dollars
- Organized letters, bills, and other client related information for Senior Managers

Feb. 2020 – Dec. 2021
New York, USA

Northeastern Global Experience Office

Senior Ambassador

- Promoted due to knowledge of programmes and ability to work well with existing leadership
- Managed event and presentation schedules for a team of fifteen via email and Google Sheets
- Provided performance reviews of ambassadors' informational presentations

July – Dec. 2019
Massachusetts, USA
